Agenda Item

AGENDA ITEM TITLE: Award Bid for VTSV Bid #2013-01: Electrical Contractor Services from Single Phase to Three Phase Construction of Underground Power Systems.

DATE: August 15, 2012

PRESENTED BY: Vanessa Chisholm/Don Schieber

STATUS OF AGENDA ITEM: New Business

CAN THIS ITEM BE RESCHEDULED: Not Recommended

BACKGROUND INFORMATION: Two bids were received for the electrical contractor services. The scope of work was:

- Must have experience working with Kit Carson Electric facilities and personnel.
- Experience with utility excavation and underground placement of three phase wire and conduit in a high mountain environment.
- Must be licensed with the New Mexico Construction Industries Commission for Commercial Electrical and associated underground excavation.
- Experience with design and construction of underground three phase electrical systems.
- Must be able to separate homeowner improvements from REA commercial utility systems and work to transition thereto.

RECOMMENDATION:

Discussion and awarding of Bid #2013-01, for electrical contractor services for conversion from single phase to three phase construction of underground power systems, to Precision Service Electric.
